

I am writing to keep K-Love Radio on the air. There are not many stations to listen to on the radio (commercial free) that actually keep people from committing suicide on a daily basis and instead bring people to the Lord. People need to be reassured sometimes that they are loved, whether they are Christian or not. This station is family oriented, which means my children are safe listening. Please don't take away my beloved station. If nothing else, we need this station in more cities around the world. God Bless, Diane Gullledge. Norfolk, VA.
